**CMA – Audit & Assurance | Entry Level**

Candidate who joins our Audit & Assurance team will be able to apply their **CMA knowledge to real businesses**, while building strong skills in financial analysis, controls and business understanding.

**Key Responsibilities**

- Assist in **Statutory, Internal and Management Audits** across industries.
- Analyse financial statements, costs, margins and key financial information.
- Understand business processes and evaluate **internal controls and risks**.
- Assist in audit planning, documentation and reporting.
- Work closely with senior team members and interact with clients.

**What the candidate will gain**

- Practical exposure to **different businesses and industries**.
- Strong understanding of **financial reporting, controls and business performance**.
- Opportunity to develop skills in **data analysis, technology and client handling**.
- A strong foundation for a career in **Audit, Assurance and Advisory**.

We are looking for: A CMA who is analytical, curious, willing to learn and interested in understanding businesses beyond numbers.
